The Blue Academy | Aquaculture Certification: Setting the Standards for Farmed Seafood

September 28, 2023

from Leonard Akwany to everyone: 9:03 AM

Which seafood is being produced in the middle of Africa? Somewhere in East Africa; maybe Lake Victoria? Which ASC work is happening there as indicated in the video map?

from Anuja Shukla to everyone: 9:12 AM

Has ASC done anything in India?

from Desirée to everyone: 9:22 AM

Hi everyone, this is Desirée from the ASC. If you're interested in knowing if there are ASC certified farms in specific countries, you can use our GIS map: [https://gis.asc-aqua.org/arcgis\\_app/](https://gis.asc-aqua.org/arcgis_app/)

from Desirée to everyone: 9:25 AM

Interested in finding out more about our SDG report? You can download it from this page: <https://asc-aqua.org/sdg-report-2022/>

from Oscar I. Mukiri to everyone: 9:27 AM

My trip to China on invitation of Institute of Oceanology, Chinese Academy of Sciences was an eye opener as to the potential of seafood aquaculture.

Personally and I bet others would like to also learn from other Asian countries and bring the knowledge to the world. The World Bank's trip to South Korea as shown in your socials is a great stride we wish to follow.

Thank you for the great work you are doing and for having me

from Desirée to everyone: 9:37 AM

To find more information about ASC certified farms, you can also look at our "Find a Farm" tool. Here you will also find the level of details in the audit reports that are fully available for the public. Transparency is core to bring credibility and allows true stakeholder engagement. <https://asc-aqua.org/find-a-farm/>

from chris to everyone: 9:42 AM

Completely agree Oscar, given that over 85% of farmed production happens in Asia there is so much to learn

from chris to everyone: 9:48 AM

Hi Anuja

from chris to everyone: 9:48 AM

We have both certified farms and improver projects in India

from Harrison Charo Karisa to everyone: 9:51 AM

Hi Oscar, you are absolutely right. There is a lot to learn from Asia. The South Korea program is focussed on seaweed but there is value in expanding the learning across the entire aquaculture value chain

from Leonard Akwany to everyone: 9:58 AM

How do you define small or medium holder in aquaculture industry?

from Mark to everyone: 10:03 AM

Is there an estimation on percentage of certified farms that are defined as extensive, semi intensive, and intensive?

from chris to everyone: 10:04 AM

Quick search of ASC "find a farm database" I see 253 certificate holders in India, 564 in Indonesia, 1432 in Vietnam and 49 in China. Clearly so much more to be done; which is the focus of our Improver Programme and the other approaches to bring scale to assessment processes.

from Foluke Areola to everyone: 11:03 AM

We cannot see the answers please

from Esther Luiten to everyone: 11:26 AM

Thank you Harrison for facilitating

from Dr Prem Kumar to everyone: 11:26 AM

Thanks to all

from Bertrand Charron - ASC to everyone: 11:29 AM

Thank you Harrison, Ruth & all for organising and attending

from Les Hatton to everyone: 11:29 AM

Many thanks to organisers and panelists- high quality presentations, very informative

from Montaha Hassan to everyone: 11:29 AM

Thank you for the informative session

from David Dietz to everyone: 11:29 AM

Thank you all for the opportunity to present.

from Remko Oosterveld to everyone: 11:29 AM

thank very much!

from Nevine Abou Shabana to everyone: 11:29 AM

Thanks to organizers and special thanks to Harrison

Nevine

from Jane Bi to everyone: 11:30 AM

Thank you, Harrison, Ruth and other organizers! Thanks to the World Bank!

from Dr KOUADIO Kouakou Olivier Raoul to everyone: 11:30 AM

Thank you from Leonard Akwany to everyone: 9:03 AM
