Asháninka community, Peru

The regional challenge to connect protected and productive landscapes in the Amazon

October 15, 2019

12:15 - 14:15

Light lunch with Amazon products

Convention Center, Room Huantille 1 (6th floor)

Through the Amazon Sustainable Landscapes Program (ASL) Brazil, Colombia and Peru work jointly to protect globally significant biodiversity and implement policies to foster sustainable natural resources use and restoration of native vegetation cover in the Amazon.

The event will allow sharing experiences developed under the ASL Program to achieve connectivity through integrating productive and protected areas in territories that are strategic for biodiversity conservation, sustainable development and the improvement of living conditions for the local communities.
