

URISA Caribbean Chapter

Regional Workshop on Open Source Technologies and Web Mapping

**St. Maarten
November 6-8, 2013**

WORKSHOP FOCUS:

- INTERNATIONAL CARTOGRAPHIC ASSOCIATION WORKSHOP – Modern Cartography
- URISA WORKSHOP - “Return on Investment”
- URISA CARIBBEAN HIGH LEVEL GEOSPATIAL INFORMATION MANAGEMENT MEETING – Second Staging

The Urban and Regional Information Systems Association (URISA) Caribbean Chapter is pleased to announce its first **Regional Workshop on Open Source Technologies and Web Mapping** between November 6 and 8, 2013.

If you want to learn more about modern cartography, the art of transforming your GIS implementation dollars into awesome returns or discuss and address key issues affecting GIS development in the region then you cannot afford to miss this workshop.

The workshop is targeted at

- GIS analysts, technicians and professionals in related fields.

- GIS professionals in key leadership roles such as GIS Managers and Heads of GIS Departments, and;
- key decision makers in the industry particularly, senior personnel of international and regional bodies with responsibility for the management of geospatial data and information, senior government officials, experts on geospatial related issues in academia, members of the donor community, and private sector companies

So join your colleagues at the Sonesta Maho Beach Resort in beautiful St. Maarten for three days of exposure to cutting edge technology, networking and stimulating discussions.
