

CDD GSG Survey Results – June 2020

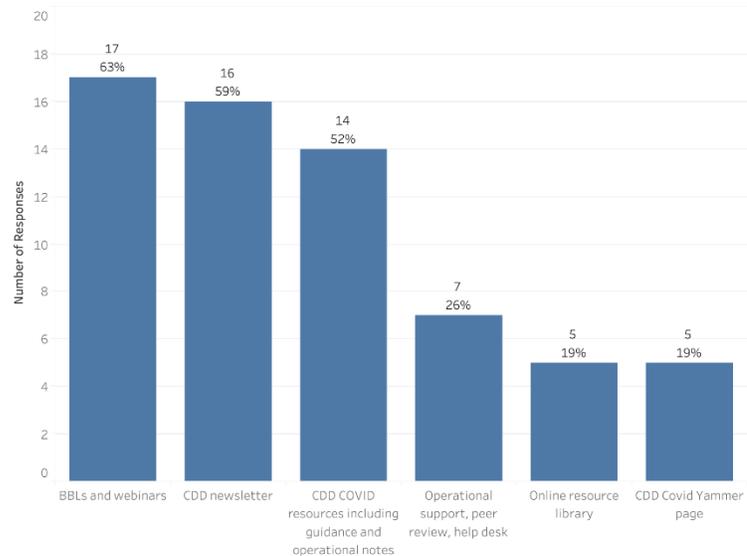

We at the CDD Secretariat sent out a FY20 year-end review survey to CDD GSG members in June. The 4-question survey was meant to ensure that we continue to serve the needs of the community. In total, we had 27 respondents. Below, please find an overview of the results.

Q: Which of the following events and resources of the CDD CoP did you participate in or use in FY20? (All 27 participating colleagues responded)

BBLs and webinars were the most frequently utilized CDD CoP services, which were used by 63% of respondents. Next, the CDD newsletter was used by 59% of respondents. CDD COVID resources were also commonly used. The online resource library and COVID Yammer page were the least utilized (see figure 1).

1. Which of the following events and resources of the CDD CoP did you participate in or use in FY20? (check all that apply)

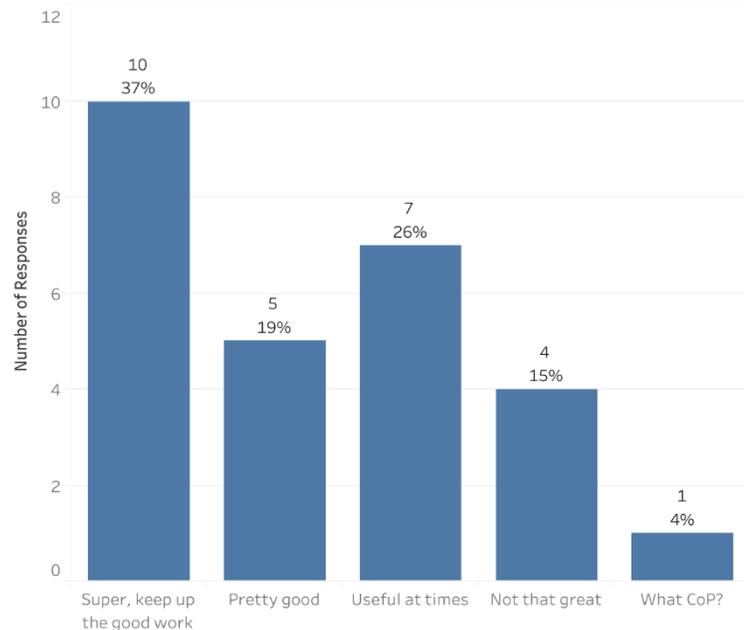

Q: Overall, how useful was the CDD community of practice to you in FY20? (All 27 participating colleagues responded)

The majority of respondents indicated that the CoP was providing useful services for their work in FY20. About 1/5th indicate that there is significant room for improvement (see figure 2).

2. Overall, how useful was the CDD community of practice to you in FY20?

Q: What are the top 3 topics of interest to you? (All 27 participating colleagues responded)

Livelihoods and LED was by far the most popular topic, garnering interest from 85% of respondents. Next, about half of our colleagues showed interest in FCV and social resilience followed by M&E (see figure 3).

Figure 3 3. What are the top 3 topics of interest to you? (check all that apply)

Q: What type of activities and resources would you like to see more of in FY21, including on COVID-19 response? (We received 19 responses)

Respondents provided a variety of useful suggestions regarding activities and resources that the CoP can provide moving forward. These generally span three categories: just in-time support, knowledge sharing and knowledge generation. Key responses from each are highlighted below.

Just In-Time Support

- M&E, linking GRMs and SDSs with CDD
- Operational support

Knowledge Sharing

- Technology-based outreach in CDD projects, CDD and social protection, policy changes that yield quick results, social cohesion, social resilience, and economic productive activities
- More training opportunities, guidance notes, operational notes, roundtable discussions, clinics, experience sharing, design discussions, cross-regional forums, live events and CDD core course

Knowledge Generation

- New analytical work and impact evaluations, further focus on livelihoods and LED: smart phone enabled technology, advances in community level CDD reforms, gender and CDD intersection, and economic analysis
