

Eastern Partnership Transport Panel

New collaboration web portal: aims and current status

Main features of the web platform

- content scaling (PCs, laptops, tablets, smartphones)
- simplified form filling and document sharing
- shorter time to upload files
- advanced search capabilities
- richer blogs and calendars
- automated translations to 30+ languages

Main aims:

- Knowledge management
- Exchange of the materials, documents and experience
- User's engagement through the discussion tools
- Blog creation and development
- Calendar and events integration

EASTERN PARTNERSHIP (EAP)

The objective of the group is to support the improvement of transport connectivity between the EU and Neighbourhood East region, this web portal will support a secretariat support function for the Eastern Partnership Panel on Transport (EaP Transport Panel). The EaP Panel on Transport refers to the linkages of communities, economies and nations through transport in Armenia, Azerbaijan, Belarus, Georgia, Moldova, and Ukraine (the EaP countries), and with the EU. The main users of the group will be the World Bank, EU, IFI and country representatives of the EaP countries.

Speed enforcement in the EaP countries

Anna Zagrebelna Posted 5 days ago Road Safety Enforcement EaP Countries

Is speed enforcement foreseen for development in your country's road safety strategies and/or action plans?

Is there commitment of decision makers to build or expand/modernizing automated speed enforcement in your country?

What would be pre-conditions for initiating such project?

4th Meeting & Knowledge Exchange Workshop for the Regional Working Groups

Created by [Anna Zagrebelna](#)

October 17, 2018 | 9:00 AM | Minsk, Belarus

The second series of physical meetings of the three Regional Working Groups on Road Safety under the EaP Transport Panel, organized by the European Commission with the direct support of the World Bank and the Government of Belarus bringing together participants from the six EaP countries will take place on **17-19th October 2018 in Minsk, Belarus**

- **Day 1 - Wednesday 17 October:** meeting of the WG 2 "Speed management and enforcement"
- **Day 2 - Thursday 18 October:** meeting of the WG 1 "Road safety data management, coordination and crash data system improvements"
- **Day 3 - Friday 19 October:** meeting of the WG3 "Road safety engineering and blackspot management"

The key discussion topics are as follows:

- Benchmarking of EaP countries on relevant road safety measures implementation
- Priority projects and action plans
- EaP cooperation framework
- Disseminating our knowledge and work through the EaP road safety website

In addition to Regional Working Group meetings, a one-day workshop for specialists from Eastern Partnership Countries on Safety Camera Use for Speed Enforcement focusing on good international practice in designing and implementing Automated Speed Enforcement (ASE) programs will take place on 16th October 2018. It is expected that workshop audience will reach about 30 persons and include representatives of the Regional Working Group 2 and other representatives of institutions and agencies from Eastern Partnership Countries involved in the preparation or implementation of ASE systems.

Please find the detailed agenda attached to this announcement.
