

# “Establishing system for Monitoring of Safety Performance Indicators (SPIs) and Benchmarking of road safety progress” – Priority Project

## ToR technical content

- 1. Background** – explaining SPIs and any existing national programs
- 2. Objectives**
- 3. Detailed scope**
  - Task 1, establish methodological approach
  - Task 2, apply methodology / adapt indicators
  - Task 3, SPI data collection local pilot project
  - Task 4, data collection at country level
  - Task 5, analysis, publishing, addressing
  - Task 6, follow-up (supervision, review)
- 4. Time schedule**, estim. 1yr (excl. downstream work)
- 5. Deliverables**, incl. methodology, data report, analysis
- 6. Requirements and qualifications**, for firm and team (yrs of experience, specialties)

## Project

- Preparation
- Procurement
- Implementation
- Funding
- Other considerations
- Country-specific
- Risks

# “Introduction of traffic calming measures to lower speed below the 50 km/h limit near schools, hospitals or in residential areas” – Priority Project

## ToR technical content

- 1. Background** – explaining traffic calming and any existing national programs
- 2. Objectives**
- 3. Detailed scope**
  - Task 1, practical guide
  - Task 2, update of legal / tech regulations
  - Task 3, typical locations, measures
  - Task 4, knowledge sharing (training)
  - Task 5, preparing broader use
  - Task 6, follow-up (supervision, review)
- 4. Time schedule**, estim. 1yr (excl. task 6)
- 5. Deliverables**, incl. practical guide, bidding documents, training report
- 6. Requirements and qualifications**, for firm and team (yrs of experience, specialties)

## Project

- Preparation
- Procurement
- Implementation
- Funding
- Other considerations
- Country-specific
- Risks

# “Identification of at least top ten blackspot locations and initiation of black spot improvement programs” – Priority Project

## ToR technical content

1. **Background** – explaining blackspot treatments and any existing national programs
2. **Objectives**
3. **Detailed scope**
  - Task 1, methodological approach
  - Task 2, identification of blackspots
  - Task 3, analysis for proposal and treatment
  - Task 4, preparation of national action plan
  - Task 5, preparing broader use
  - Task 6, follow-up (supervision, review)
4. **Time schedule**, estim. 1yr
5. **Deliverables**, incl. list of blackspots, bidding documents, action plan
6. **Requirements and qualifications**, for firm and team (yrs of experience, specialties)
