Countries have had to raise debt as part of a broader resource mobilisation strategy

SESSION 1: DOMESTIC RESOURCES AND PRIORITIZATION

Health expenditure during COVID-19 crisis has also come from reallocation of existing health resources

SESSION 1: DOMESTIC RESOURCES AND PRIORITIZATION

There remains a perception of inefficiency by the Ministries of Finance towards the Ministries of Health

SESSION 1: DOMESTIC RESOURCES AND PRIORITIZATION

Increased synergy between PFM and health financing functions is required to achieve long term goals

SESSION 2: GETTING RESOURCES RAPIDLY AND FLEXIBILITY TO WHERE THEY ARE NEEDED

Avoiding a dip in frontline service use in the future, will require modifications to purchasing arrangements

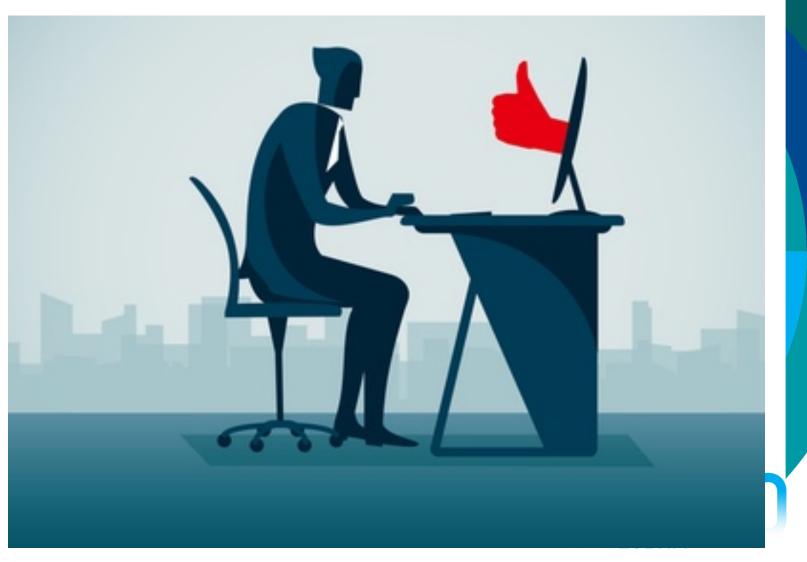

SESSION 3: ENSURING CONTINUITY OF ESSENTIAL FRONTLINE SERVICES IN THE FACE OF COVID-19

Expanding the use of technology as an enabler of service provision, must be underpinned by a robust framework

© Erhui 1979

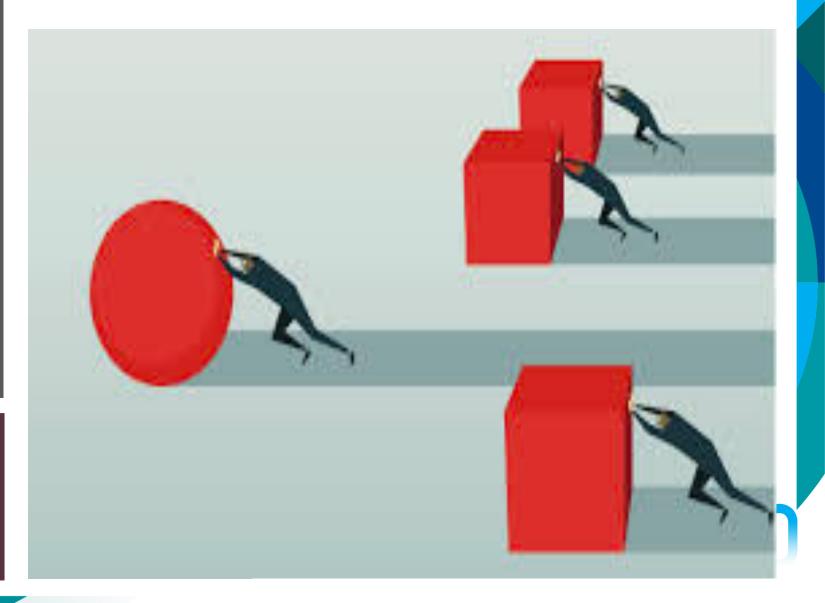

SESSION 4: MODIFICATIONS TO PURCHASING ARRANGEMENTS IN RESPONSE TO COVID-19

SESSION: COVID-19 AND THE PRIVATE SECTOR IN LMICs

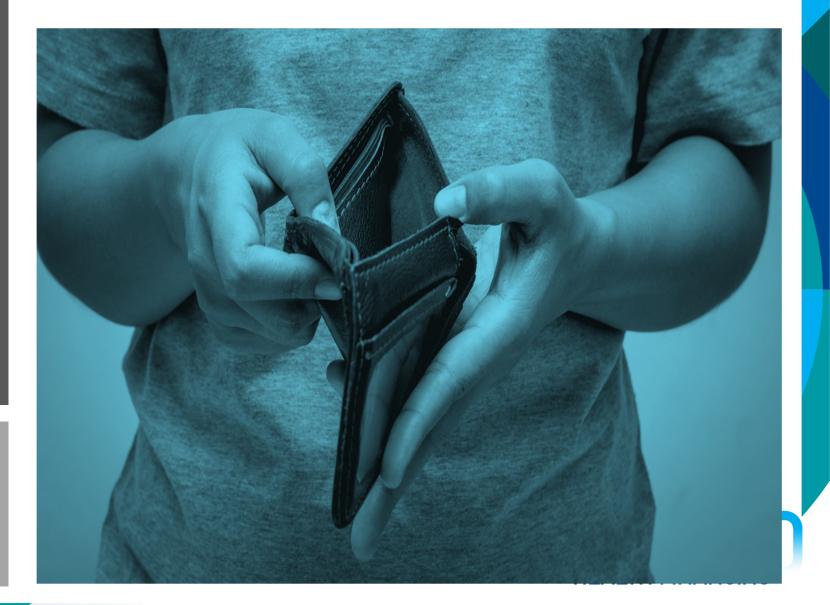

Private sector capacity to adapt and respond quickly, provides an opportunity to rapidly address public sector challenges

© Erhui 1979

Poor financial protection: declining incomes and high out-ofpocket payments will push many more into poverty

SESSION 5: COVID-19 AND FINANCIAL PROTECTION

BUILDING BACK BETTER IN RESILIENCE: Q&A

COVID-19 Health Financing Resilience Program Community of Practice (CoP)*

NEXT STEPS:

- Onboarding sessions ONCE A WEEK from now through August
- Sessions focused on technical priorities heard during learning round ups at AHFF
- Material will continue to be posted on COP platform
- More information at http://collaboration.worldbank.org/hfrs

*The COVID-19 HFRP Community of Practice (CoP) is a joint initiative of The World Bank, the Global Financing Facility (GFF), and the Revisiting Health Financing Technical Initiative of the Joint Learning Network (JLN), in coordination with P4H and other partners.

Reminder

5TH AHFF PART 2 – NOVEMBER 2020

DETAILS IN YOUR INBOX SHORTLY

- Let's continue this conversation during Part II of the Forum!
- The focus is on health financing sustainability: the capacity to continue to progress towards the health-related SDGs in the face of the "new normal".
- This involves not just adapting to the "new normal" when doing what is known to work in health financing, but also adapting to a set of more predictable long-term processes that will also increase the need to spend on health or reduce the capacity to raise revenues (e.g. the increase in NCDs).
