private sector
expertise for
urban
regeneration

Better
institutional
coordination for
urban
regeneration and
heritage
conservation

Improve tourism
potential through
urban
regeneration,
encourage local
culture and use
of ICT for
promoting urban
heritage

Create
employment
opportunities for
poor and
vulnerable
communities

Actions to be taken by Govt. of Nepal

Develop enabling policy and regulatory framework to promote urban heritage conservation and regeneration following an area-wide approach

Community awareness generation on benefits of cultural heritage assets in terms of local economic development and livelihoods

Develop master plan for heritage conservation and urban regeneration in Kathmandu Valley in collaboration with other municipalities and relevant institutions.

Improve basic infrastructure and invest in physical conservation - focus on planning, implementation and management

Skill development initiatives for local cultural industry & encourage entrepreneurship

Institutional strengthening of municipalities for better planning, implementation and management of urban regeneration and cultural tourism
