# SEKILAS TANGERANG

Tangerang in A Glance

## Keunggulan Kota City Overage

Letak yang strategis dan aksesibilitas transportasi  
Strategic location and transportation accessibility

## Profil Umum Kota Tangerang Tangerang City Profile

Indeks Pertumbuhan manusia Kota Tangerang

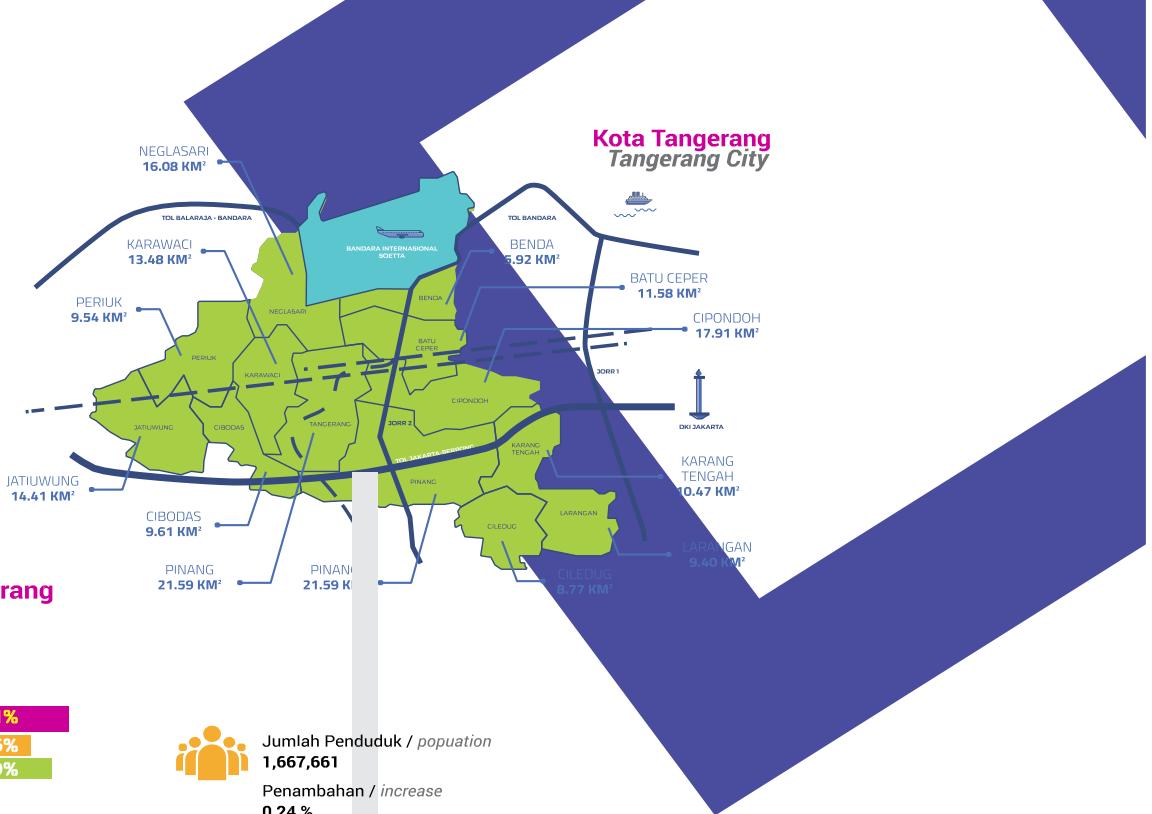

Rincian indikator IPM

- a. Angka harapan hidup
 

	Kota Tangerang <b>78.91</b>
--	-----------------------------
- b. Angka melek huruf
 

	Kota Tangerang <b>98.43%</b>
	Nasional <b>93.20%</b>
- c. Daya beli masyarakat per kapita
 

	2015 <b>13.766</b>
	2016 <b>13.911</b>
	(ribuan tahun)

Jumlah Penduduk / population  
**1,667,661**

Penambahan / increase  
**0,24 %**

Penduduk usia produktif  
**1.269.976 jiwa atau sekitar 76,15%**  
working age population  
1.269.976 people or about 76.15%.

Laju pertumbuhan ekonomi  
**Kota Tangerang 5.50%**  
Nasional 5.02%

# Integrated Urban Water Management (IUWM)

## Key Principle

### Water Quantity

- Overall attitude change to use the natural resources sustainably/responsibly.
- Sustainable water use by reduction of shallow groundwater
- Private sector participation in water distribution improvement

### Water Quality

- awareness and behaviour improvement and treatment capacity for sanitation
- Many sanitation and solid waste management projects are implemented at pilot scale only.
- Private sector participation in domestic wastewater water treatment has very little potential

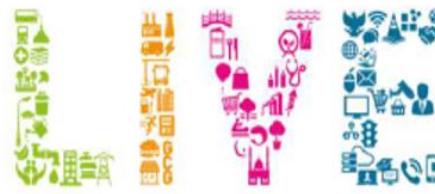

### Water Continuity

- Improved control on land conversion
- Restrictions made on agricultural activities still allowed in hilly/erosive upperwatersheds and water infiltration areas.
- The community resilient for natural disasters,
- No potential for direct private sector participation flood improvement control projects.

# Vision to be accomplished in Tangerang City

## Bebas Banjir

Tercapainya pelaksanaan masterplan banjir terpenuhi 100% :

- Terlaksana pengaturan pola pengaliran tata air
- Terlaksana Revitalisasi sungai dan garis sempadan sungai
- Terlaksana Revitalisasi Danau/Situ dan garis sempadan danau
- Terlaksana Pembangunan Sumur Resapan

## Vision LiveAble

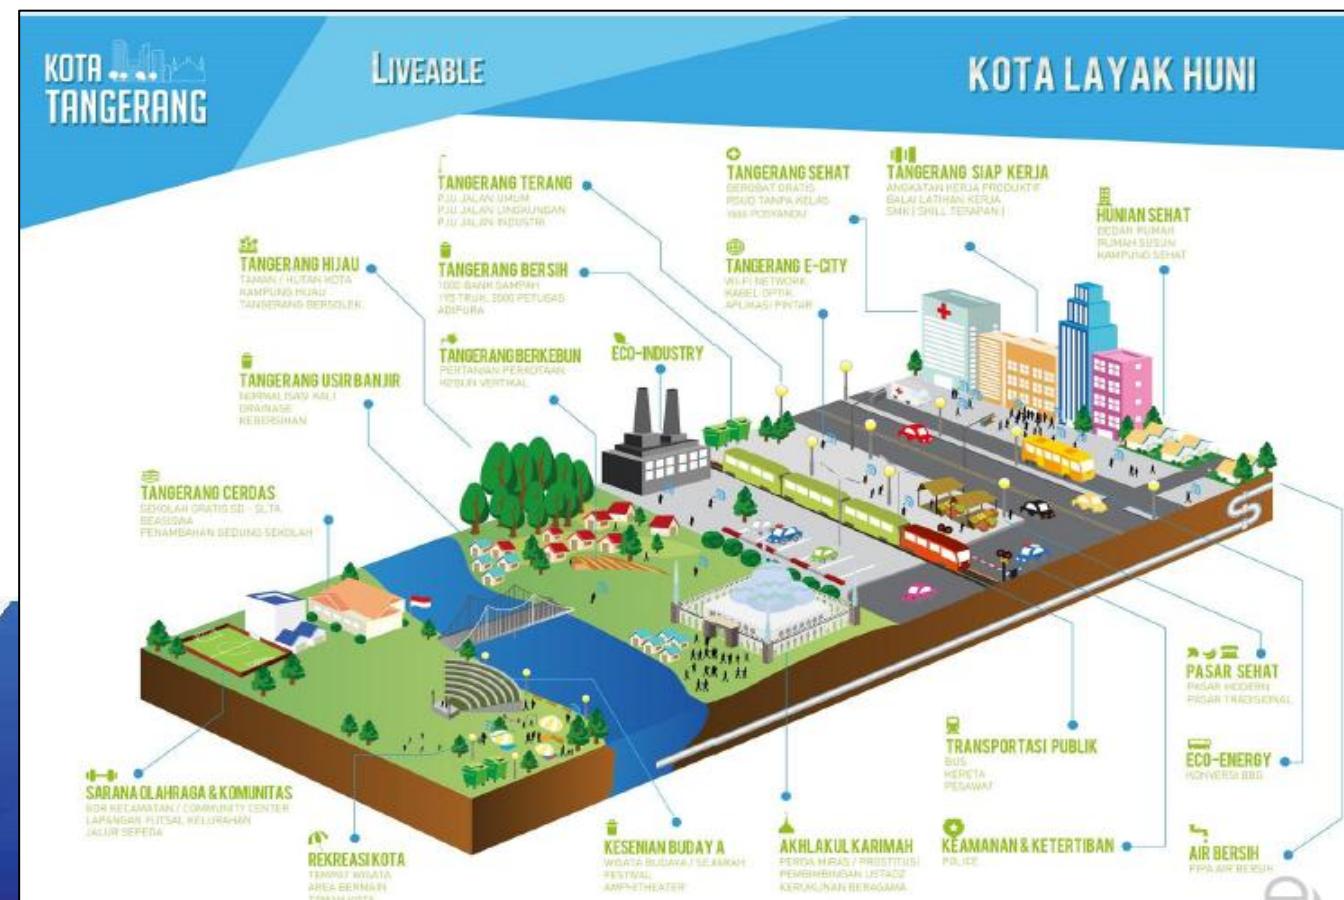

### Terpenuhnya Air Bersih dan jaringan distribusi

Tercapainya pelayanan Kuantitas, Kualitas dan kesinambungan air bersih pada Kota Tangerang :

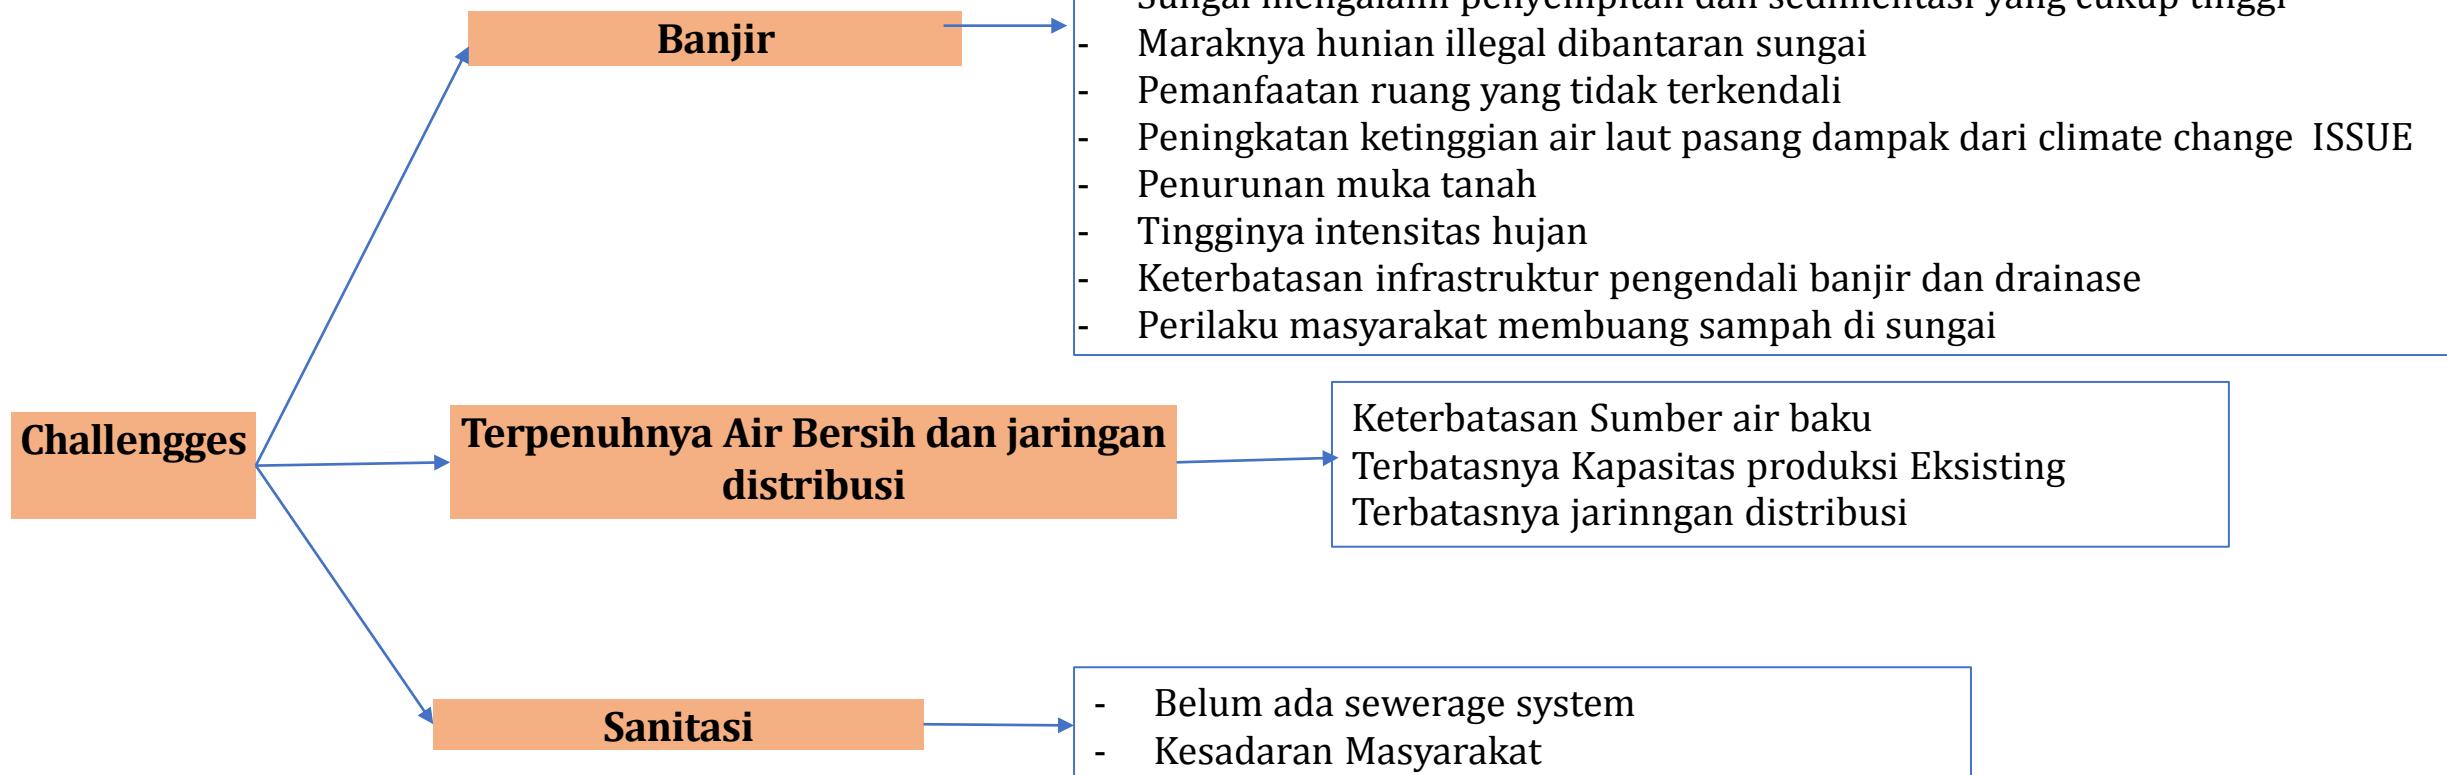

- Tercapainya target RISPAM terpenuhi 100% pada tahun 2030 , pada 3 zona Spam

### Sanitasi

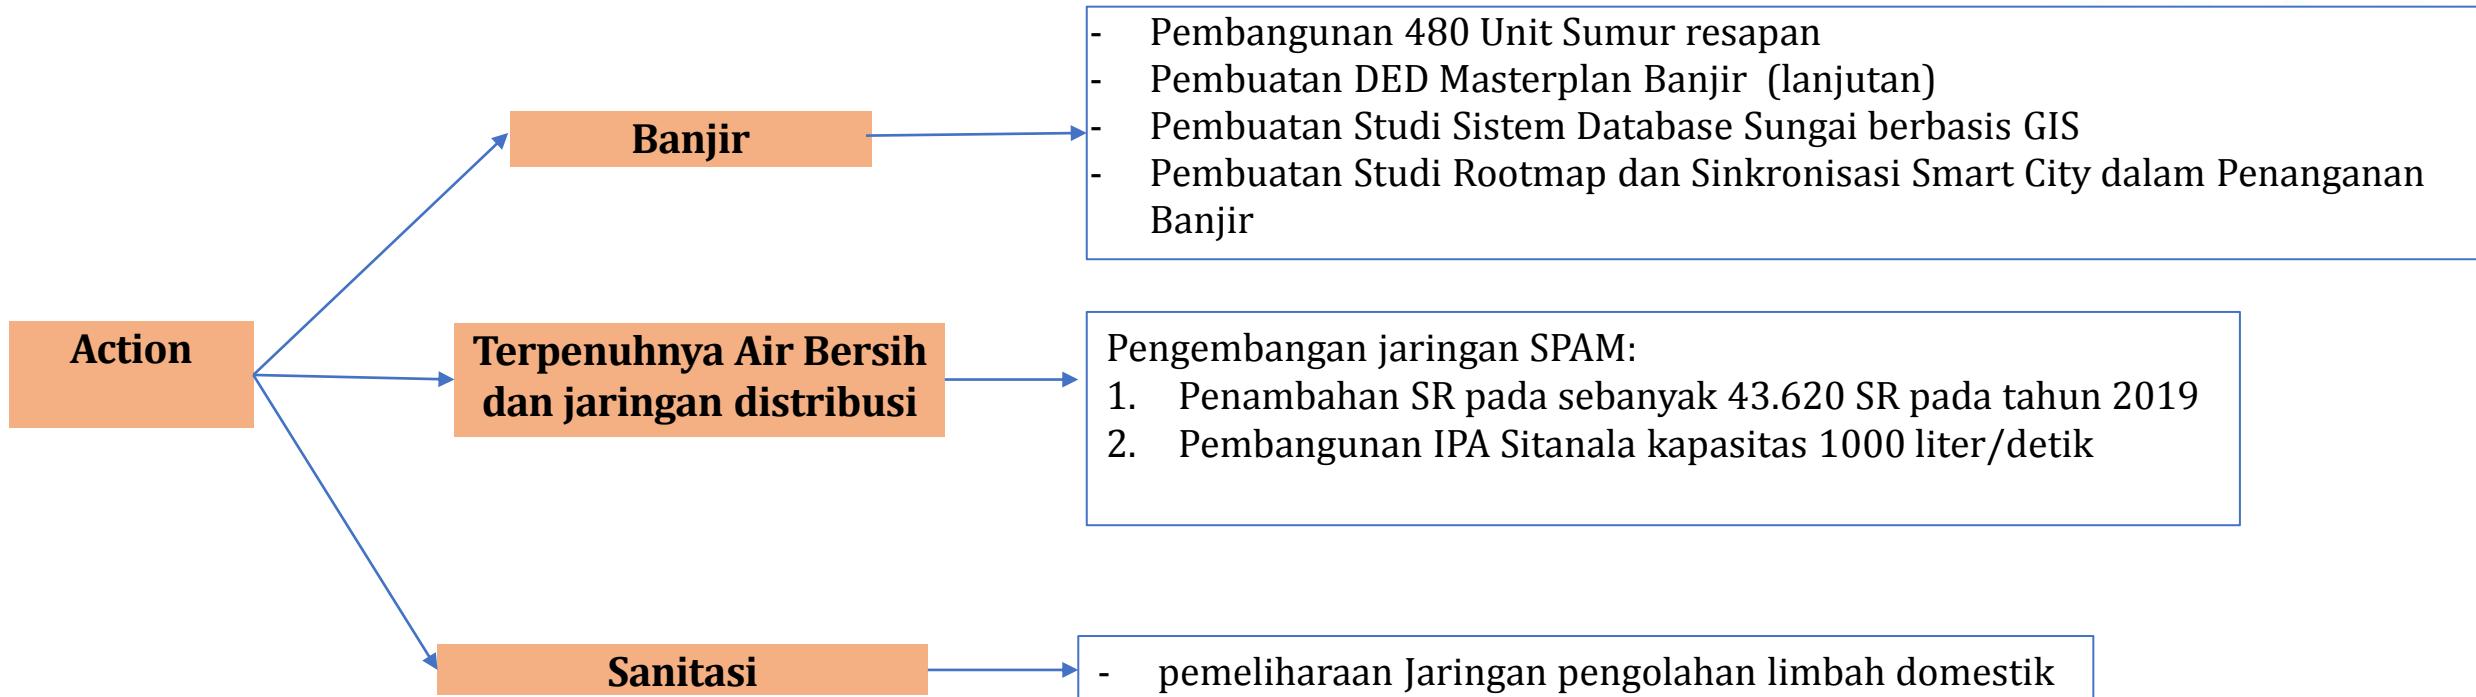

Tercapainya pelayanan pengolahan limbah 100% pada Kota Tangerang :

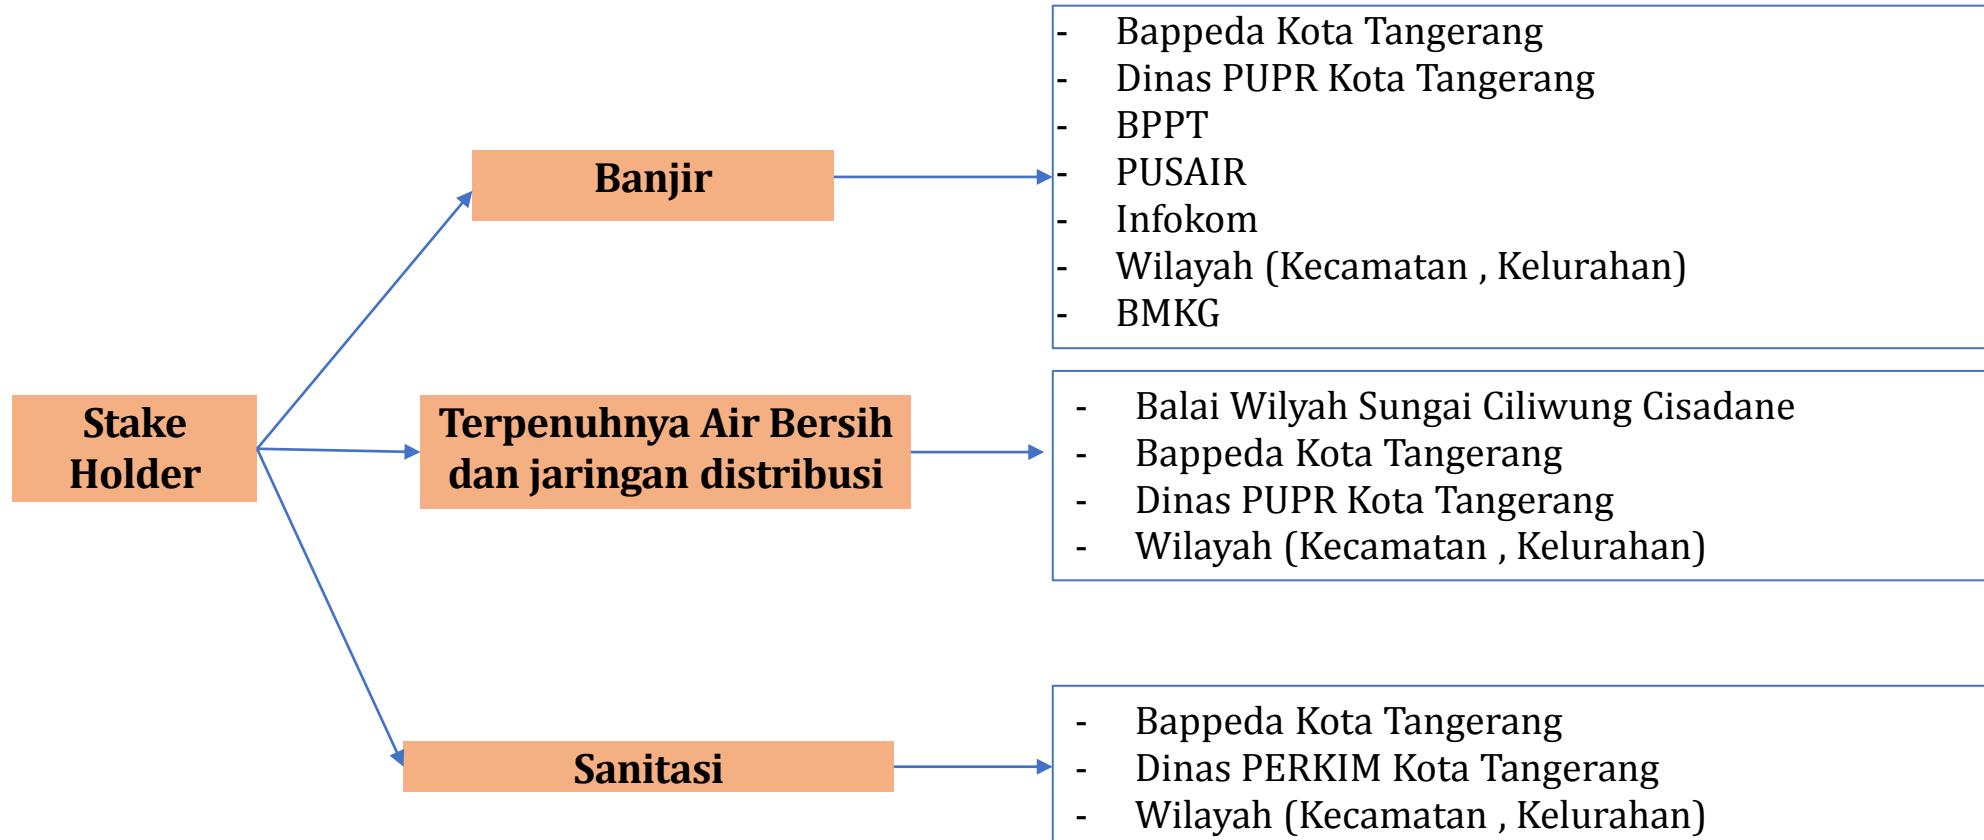

# Challenges

# Action Steps

# Stake Holder

# TIME LINE

- Pembangunan 480 Unit  
Sumur resapan

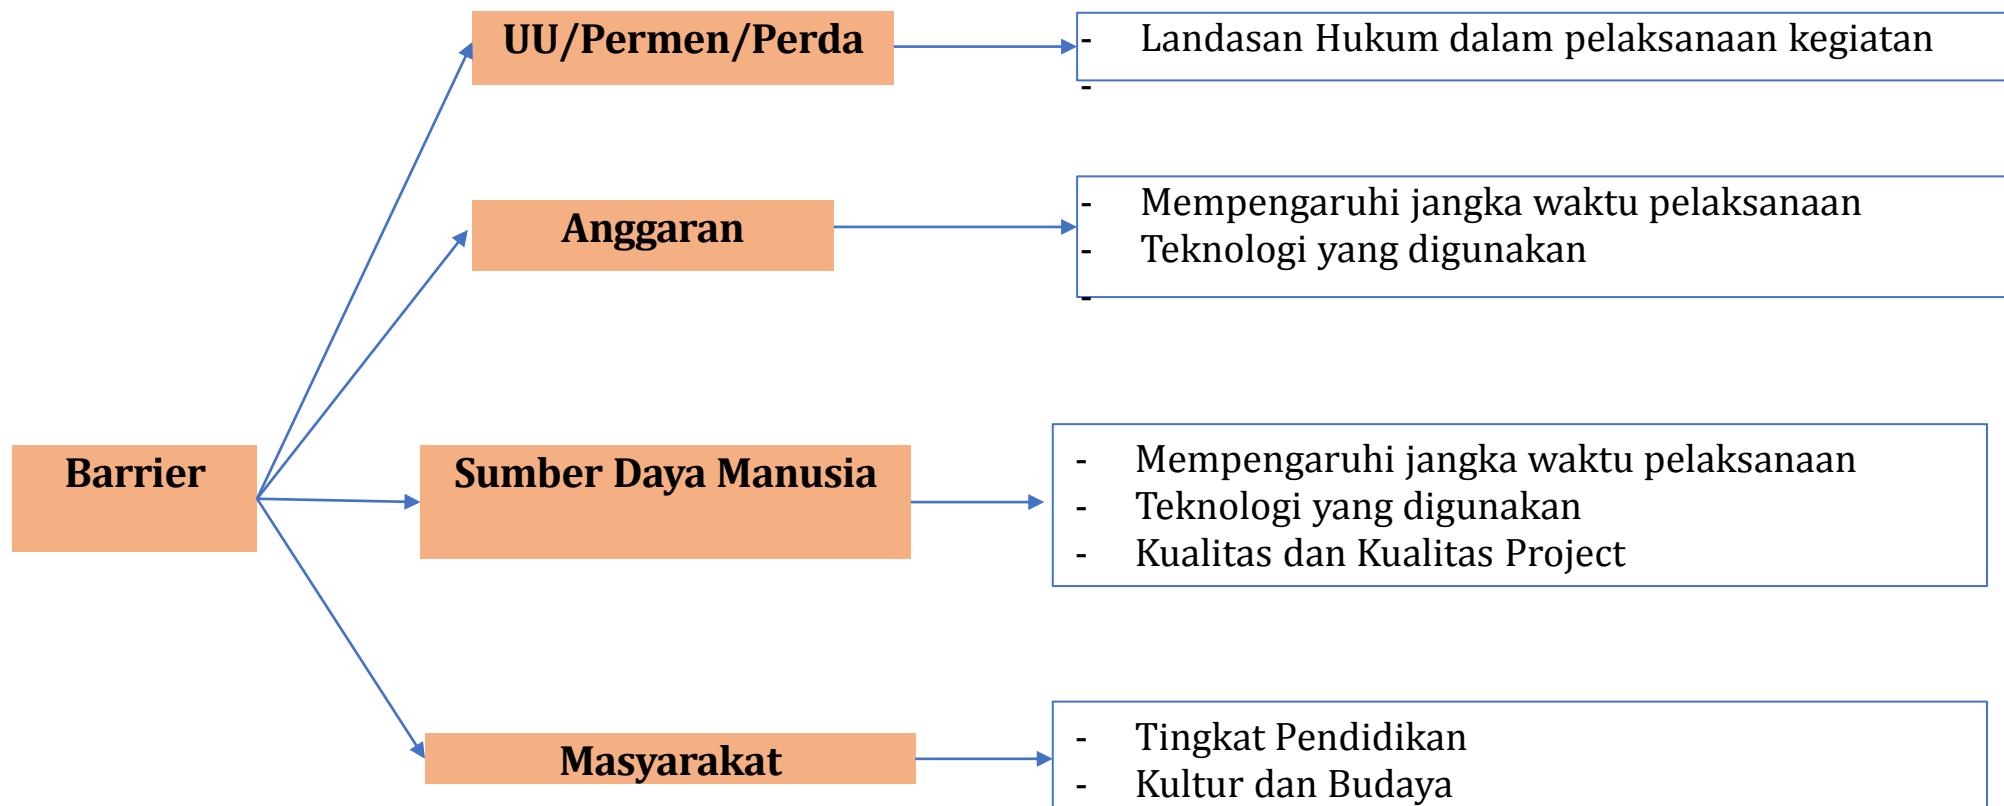

→ - Pembuatan DED Masterplan Banjir (lanjutan)

→ - Pembuatan Studi Sistem Database Sungai berbasis GIS

→ - Pembuatan Studi Rootmap dan Sinkronisasi Smart City dalam Penanganan Banjir

# Barrier

# Support
