

Brazil Action Plan

Planning for Safe, Inclusive and Resilient Cities TDD
Tokyo, Osaka - Japan
April 23-27, 2018

Brazil Key Takeaways from TDD

1. Implementation of integrated actions to ensure resilience
2. Need for construction of different alternatives and opportunities taking into consideration the profile of social exclusion of the territory (different cities different needs)
3. Need to articulation of different actors (public, private, NGO`s)
4. The actions of police in the territories are built with engagement community
5. Reduction of crime through the prevention and largest presence police community

Brazil Accomplishments Needed

1. Increased opportunities for young people in vulnerable territories
2. Improve the integration of civil society by increasing the participation of private partners and NGOs
3. Increase presence in territories (with infrastructure and activities directed to the community - especially the young)
4. Empowering the police for preventive, proactive and community engagement
5. Structure and disseminate the experience to the different levels of government (municipal, state and national)

Brazil Actions to be Taken

- Short-term:
 - Integration between the actions carried out by the Secretariat of Youth and Community Policing in Fortaleza
 - Seek partnerships with private entities and NGOs
- Medium-term:
 - Training of public and police agents for joint, preventive and resilient action
 - Mobilization of the community to participate in the Project
- Long-term:
 - Engaging youth in inclusive and resilient activities on an ongoing basis
 - Mobilization of partners' financial resources for the maintenance of activities

Brazil Barrier/Challenge of Implementation of Plan

1. High vulnerability and crime rate among young people
2. Low financial resources to expand project actions
3. Lack of integration of the actions and dispute between the different levels of government
4. Low capacity of public agents and police to work with community engagement
5. Low community interest in engaging and participating in official participation spaces

Brazil Support Needed

- World Bank:
 - Financial resources for support for expansion of the areas that the project meets
- TDLC Program (Japan)
 - Support in the consolidation and improving the methodology used
 - Training actors involved with the methodology consolidated (police and agents public working with young people)
 - Evaluate the impact of the actions and share the good practices.
- Knowledge Products (Case Studies, Policy Notes, etc.)
 - Consulting / Study for consolidation and improvement of the methodology of the project – Police Community and Engagement Youth
 - Case Study – Study of the impact of the Project (Reducing of crimes committed by young/ Reducing the fear in the territories served by the project / Increase engagement of young people in the activities offered)
