

Somalia Action Plan

Planning for Safe, Inclusive and Resilient Cities TDD
Tokyo, Osaka - Japan
April 23-27, 2018

JAPAN GOV
THE GOVERNMENT OF JAPAN

WORLD BANK GROUP
Social, Urban, Rural & Resilience

Somalia Key Takeaways from TDD

1. Citizens engagement and community participation is a key for any development
2. Neighborhood association, local government empowerment can make cities become resilient
3. Effective and inclusive Social development and strong PPP can improve the economy and country's development
4. Building trust and relationship between the local government and national government can serve the best interest of its people and citizens
5. How academia and civil society are contributing the social development in Japan

Somalia Accomplishments Needed

1. Building Resilience and durable solutions for the IDPs, returnees and vulnerable host communities to Improve long term the social and livelihood problems
2. Institutional building to be strengthened; Financially, politically and administratively
3. To improve basic social services and sustainable, economic infrastructure such as affordable energy
4. To improve the urban infrastructure and Land policy and regulations
5. Creation of employment opportunities of youth

Somalia Actions to be Taken

- **Short-term: (Next One year)**

- Mobilize resources and experts in the areas of Municipal governance and finance, urban plans/land use plans, crime and violence by <TDLC>
- Peer to peer learning on citizens engagement, community participation and neighborhood association from cities like, Osaka city(Airin district) and MEDELLIN , by <TDLC >

- **Medium-term@2-5 years)**

- <intergovernmental coordination mechanism/ such as division of labor across different levels of government
- Capacity building on urban planning, mobilization of financing and implementation to be strengthened; >, by <National government and TDLC>
- <Creation of employment opportunities of youth >, by <National government, Municipality, TDLC>

- **Long-term: (More than 5 years)**

- <Building Resilience and durable solutions for the IDPs, returnees and vulnerable host communities to Improve long term the social and livelihood problems by <National Government, Municipally and WB and other partners >
- <To improve the urban infrastructure and Land policy and regulations >, by <Municipality, TDLC or other implementing partners >

Barrier/Challenge of Implementation of Plan

1. Lack of urban infrastructure fund, and Human capital > <institutional building, mobilize resources
2. Massive IDPs, returnees and vulnerable host communities > <Make permanent shelter and creating livelihood opportunities
3. Environmental impact such as drought and famine <long term durable solutions and resilience
4. Instability and insecurity

Somalia grants and TA Active or Needed

- **Technical Assistance Work Planned:**

- Organize and train technical experts both National and local government
- UN, EU, WB and AfDB, DFID and USAID

- **Investment Work Planned:**
