# Cambodia`s Action Plan

Solid Waste Management TDD  
Tokyo, Kitakyushu - Japan  
September 24-28, 2018

# Cambodia Key Takeaways

1. Waste collection, waste separation and 3R principles.
2. Informal waste pickers.
3. Management of tourism waste.
4. Municipal solid waste management roadmap.
5. Landfill management of Kitakyushu city.

# Cambodia Accomplishments Needed

1. Institutional arrangement and capacity building.
2. Policy and strategy on solid waste management.
3. Improvement of solid waste collection and transportation.
4. Sanitary landfill.
5. Financial support.

# Cambodia Actions to be Taken

- **Short-term:**
  - Public awareness and participation from local communities and sub-national levels
  - Internal training and sharing the TDD lesson learned.
- **Medium-term:**
  - Waste separation and 3R principal,
  - Law enforcement on solid waste management.
- **Long-term:**
  - National municipal solid waste management strategy and action plan, by MoE
  - Improvement of landfill and introduction of incineration

# Cambodia Barriers & Challenges to Implementation

1. Human resources.
2. Technical assistances.
3. Implementation and law enforcement on solid waste management.
4. National solid waste management strategy and action plan.
5. Financial resource.

# Cambodia Lending and TA - Active or Needed

- **Technical Assistance Work Planned:**
  - Social and Environmental safeguard.
  - Analytical work for solid waste sector improvement and preparation of investment plan.
  - Solid waste management data/information system.
- **Investment Work Planned:**
  - Investment plan to follow from TA and analytical work.
  - For Phnom Penh Administration Capital, the private sector has been invited for investment proposals.

# Cambodia Support Needed

- **World Bank:**
  - Technical support.
  - Loan for implementation of projects.
- **TDLC Program (Japan)**
  - Continuous support on capacity building in Japan.
  - Dispatching the experts for training and sharing knowledge in Cambodia.
- **Knowledge Products (Case Studies, Policy Notes, etc.)**
  - Specific/detail of incineration plant.
  - Extended Producer Responsibility (EPR) policy.
