TOKYO | FEB 13 – 17, 2017

## W elcome to TDD!

We are very excited to host this **Managing Urban Expansion in Mega-Metropolitan Areas TDD**. The TDD will be delivered by the Tokyo Development Learning Center (TDLC).

The TDD will bring together World Bank task team leaders and their respective clients (City government officials, line ministries, and others) from across the world to discuss the effective use of information technology for improving land administration, explore policy options and share examples of successful interventions. We are confident that you will find the TDD to be highly engaging and useful.

**To assist in making your travel as easy and enjoyable as possible, we would like to provide with you some useful information about your stay. Please review this guide before you depart from your home country.**

If there is anything that we can do to make your stay in Tokyo more comfortable please do not hesitate to contact any member of the TDD Team.

We look forward to seeing you in Tokyo and Seoul for a highly productive and enjoyable week.
