

# Partnership between GSCP and KAIA

World Smart City Expo Korea 2021

Haley Sookyung Yeo

September 9, 2021 (D.C. time) / September 10, 2021 (Seoul time)

# Just-in-time Technical Assistance (JIT) and Operational Support (OS)

**GSCP Expert Support Mechanism**

- **GSCP**
  - Review applications from task teams
  - Select teams to get experts' support
  - Evaluate the suitability of expert candidates
  - Provide administrative support to task teams and experts
- **Task teams**
  - Finalize TOR reflecting the up-to-date progress of the project
  - Actively look for experts both from the GSCP pool and local consultant pool
- **Experts**
  - Review and confirm performing the tasks in TOR
  - Work closely with the Task Team Leader (TTL) of the assigned projects
  - Discuss and get guidance on project-related and technical matters

## Compiling a list of experts for the GSCP

- Review EOI submitted by the task teams
- Market research, outreach, and networking activities to connect experts from the various fields
- Create a list of experts for selected projects and consult with GSCP team

## Administrative support to mobilized experts

- Necessary administrative support to selected experts in performing their JIT/OS assignments
- Hold hybrid workshops with potential, identified, and participating experts (Orientation workshop, Check-in workshop, etc.)
