Introduction

Most global cities now look to “Smart City,” as a go-to approach in tackling urban issues like transport, environment, energy, etc., especially in the sense that it applies information and communication technology in solving out challenges facing cities.

The 1st World Smart City Week or WSCW will bring together smart cities and experts around the globe to share best practices, policies and tech trends in the field of smart city, as well as strengthen the global network.

WSCW 2017, under the theme of a “Smart City towards a City of Humanity Looking to People,” will take place for five days from Monday, September 4 to Friday, September 8, 2017, in KINTEX, Korea.

We look forward to your interest and participation.
