World Smart Sustainable Cities Organization

WeGO

World Smart Sustainable Cities Organization

World Smart Sustainable Cities Organization

WeGO was established in 2010 as the World e-Governments Organization of Cities and Local Governments by 50 founding member cities with the goal of pursuing sustainable city development based on e-Government. WeGO worked towards improving administrative efficiency and transparency, advancing online public services for citizens, increasing civil involvement, and bridging the digital divide. During the 4th WeGO General Assembly in the Ulyanovsk Region in 2017, the WeGO General Assembly approved the change of WeGO's name to the World Smart Sustainable Cities Organization seeing that much of the world has moved past e-Government and into Smart Government inside the framework of Smart Sustainable Cities. With the name change, WeGO also updated its Mission, Vision, and 3-Year Strategic Plan to adapt to fast-changing digital technologies and to help WeGO members address the sustainability challenges that cities are expected to face.

WeGO Vision and Mission

WeGO's Vision :
Smart Sustainable Cities for All

Innovative cities that leverage digital technology and connectivity to improve quality of life, efficiency of urban operation and services, and economic prosperity for all citizens, while ensuring long-term economic, social, and environmental sustainability.

WeGO's Mission

To promote and facilitate the transformation of cities to Smart Sustainable cities worldwide

To be a global platform for cities to enhance their digital capabilities and leverage their innovation potentials in order to develop transformative solutions for Smart Sustainable Cities

To foster international exchange, cooperation, and learning among cities

WeGO Programs

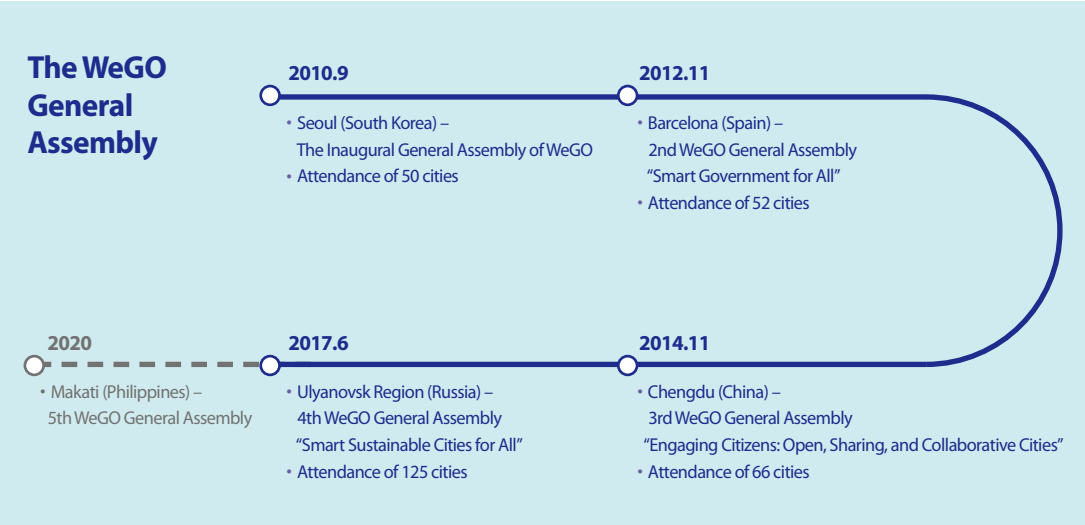

WeGO's Programs are built on the following strategic goals that the organization has outlined for the 2017-2020 term.
